B. Interdisciplinary & Transdisciplinary Professional Education and Techno-Health Programs:

DMIHER (DU) organized a Higher Education Conclave on Current Opportunities in Interdisciplinary & Transdisciplinary Professional Education and Techno-Health Programs in collaboration with The Institution of Engineers (India) and the Public Health Foundation of India. Aligned with SDG 4 (Quality Education) and SDG 9 (Industry, Innovation, and Infrastructure), this initiative provided a platform for thought leaders, educators, and professionals to discuss and recommend strategies for advancing interdisciplinary and transdisciplinary education. The conclave aimed to foster innovation and bridge diverse knowledge domains, encouraging solutions with significant societal impact, particularly within professional and techno-health fields. C. National Conclave of Medical Educators and launched the Association of Medical Educators of India (AMEI)

As part of its commitment to SDG 4, Datta Meghe Institute of Higher Education and Research (DMIHER), Wardha, organized the National Conclave of Medical Educators and launched the Association of Medical Educators of India (AMEI) on 28th September 2023 at its off-campus site, Datta Meghe Medical College, Nagpur. This landmark hybrid event served as a platform for educators, researchers, and professionals in medical education to exchange ideas, share experiences, and collaboratively shape the future of medical education in alignment with global educational goals. The event culminated in a declaration of commitment to the purposeful creation and systematic implementation of the conclave's outcomes through the formation of AMEI. This association aims to adhere to the principles of the World Federation for Medical Education (WFME) and the standards of the World Health Organization (WHO), ensuring excellence across all stages of medical education—including basic, postgraduate, and continuous professional development—as well as in distributed and distance learning in medical education. This initiative seeks to enhance the quality of preventive, promotive, diagnostic, curative, and rehabilitative healthcare. ([Conclave Report](#))

E. DMIHER(DU) participation in ‘Viksit Bharat 2047: UGC initiative’

Hon. Vice Chancellor, DMIHER (DU) was nominated by the Chairman UGC as the esteemed member of the Western Zone to contribute to the vision document of Viksit Bharat 2047. DMIHER(DU) was one of the 153 Universities to have been selected across the country to contribute to this Vision Document. ([Link](#))

As per the guidelines from UGC for Viksit Bharat @ 2047, to engage with their students and academia, industry partners and government body representatives, to deliberate on the suggested themes for the Western Zone Universities, the university conducted a panel discussion and prepared an action plan for the proposed activities and nodal officers were appointed for the conduction of the proposed activities.

The programs were conducted as under:

➤ **Empowered Citizens**

- Naari Shakti – Women-led Development
- Caring and Inclusive Society
- Employment and Labour

➤ **Thriving and Sustainable Economy**

- Industry of the Future, Services of the Future, Trade – Integrating with the World

➤ **Effective Governance**

- Transformative Governance: Reform, Perform and Transform
- Transport Infrastructure and Logistics

➤ **Technology & Innovation Leadership**

- Startup Ecosystem for the World

➤ **Bharat as Vishwabandhu**

- Bharat as Vishwabandhu

L. Professional Development Programme

DMIHER organized a wide array of educational and community-focused events, including workshops, webinars, conferences, and expert lectures. Topics covered include healthcare innovations, AI in education, biomedical advances, clinical and surgical techniques, and interdisciplinary research. Events ranged from practical skill sessions (like postural drainage and temporal bone dissection) to thematic webinars on topics like viral hepatitis, mental health, and antimicrobial resistance. Specialized CME sessions addressed areas such as spine health, hereditary malignancies, and early detection of female reproductive cancers. Additional highlights included sessions on AI and machine learning applications, pragmatic trials, and IoT in healthcare, fostering broad learning and engagement for both professionals and the public.
