SDG 17 – 17.4.3

DMIHER(DU) have dedicated outreach educational activities for the wider community, which could include alumni, local residents, displaced people

DMIHER(DU) is dedicated to providing comprehensive healthcare services, especially targeting marginalized, disadvantaged, and hard-to-reach populations. Its initiatives extend to rural, peri-urban, and tribal communities, as well as local disadvantaged groups and refugee and immigrant populations who often face barriers to healthcare access. DMIHER(DU) conducts various outreach and extension programs to directly reach underserved communities, offering healthcare services such as health screenings, immunization drives, and maternal health support. These efforts now include the "Arogya Setu for Healthcare Services," which further enhances accessibility and Special initiatives focusing on minority communities, ensuring inclusivity and support.

The institution offers CPR training for the general public, fostering life-saving skills within communities. DMIHER(DU) conducts health interventions in tribal areas and hosts an "Oral Health Mela" for school children, promoting preventive dental care. The university has adopted more than 100 villages to provide sustained healthcare services and foster holistic development. The university also has provided internship opportunities for migrant medical students affected by the Ukraine-Russia conflict, supporting their professional growth and integration into the medical field.
