SDG 3 – 3.3.3

DMIHER(DU) share sports facilities with the local community, for instance with local schools or with the general public

DMIHER is deeply committed to community engagement, and one key initiative is the shared use of our sports facilities with various community groups. Our partnerships extend to district associations and academies, local schools, and military and paramilitary aspirants, providing them with access to high-quality sports infrastructure for both competitive and training purposes. Additionally, we collaborate with national sports franchises, including the Rajasthan Royals, supporting professional and aspiring athletes in their journey to excellence.

This initiative not only enhances access to top-tier sports and recreational amenities but also fosters a stronger sense of community and shared purpose. By bridging gaps in access to such facilities, DMIHER contributes to the physical and social well-being of the local population, reinforcing our commitment to making a positive, lasting impact on society.
