SDG 3

3.3.3 - DMIHER(DU) share sports facilities with the local community, for instance with local schools or with the general public

Our University is committed to community engagement, and one way we contribute is by making our sports facilities available to the local community. Local schools and the general public has access to sports facilities for various sports activities, including sports events, recreational activities, and fitness programs. This partnership helps foster a sense of community, promotes a healthy lifestyle, and allows us to share resources for the benefit of all. We believe in the importance of being a good neighbour and supporting the well-being of our local community through these shared resources.
