SDG 5 – 5.3.4

Women's application in unrepresented areas

DMIHER is dedicated to advancing educational equity by offering increased opportunities for girls and women, who, despite being more present in school today than ever, often face unequal access to completing and benefiting from the education of their choice. Many are limited by societal biases, norms, and expectations, affecting both the quality and focus of their education. Women remain significantly underrepresented in science, technology, engineering, and mathematics (STEM) fields, which are pivotal to future job markets and global development goals. Recognizing this disparity, UNESCO emphasizes the empowerment of girls and women through education to foster sustainable and inclusive growth.

(<https://www.unesco.org/en/gender-equality/education/stem>)

In alignment with these goals, DMIHER established the School of Allied Science (spanning Science & Technology, Social Sciences, Humanities & Liberal Arts, Commerce, and Management) in 2019-20 and the Faculty of Engineering and Technology in 2021-22. DMIHER actively encourages women to apply to underrepresented fields by offering targeted scholarships, support systems, and initiatives aimed at enhancing diversity and inclusion. Through these efforts, we strive to support the progression of women in traditionally male-dominated fields, fostering an inclusive educational environment that enables women to achieve their full potential.

- Formerly known as **Datta Meghe Institute of Medical Sciences** (Deemed to be University)
- Conferred 'A' Grade status by H.R.D. Ministry Govt. of India
- Re- accredited by NAAC (4th cycle) with A++ Grade (CGPA 3.78)
