## ABOUT SPDCH

» Sharad Pawar Dental College & Hospital (SPDCH) is a premier institution in dental education, research, and healthcare, setting national benchmarks in academic excellence and clinical advancements. Established in 1991, SPDCH has consistently ranked among India's top 25 dental institutions in the NIRF rankings for five consecutive years, currently holding the 24th position in 2024. It is also **Maharashtra's first NABH-accredited dental hospital**, underscoring its commitment to high-quality patient care and global standards in dental education. The institution is equipped with **325+ Dental Chairs** and operates in collaboration with a 1,500+ bedded multi-specialty hospital, making it one of the largest dental healthcare setups in Central India.

» SPDCH offers UG Program, 8 PG Programs, 5 Executive Development Programs and has awarded 57+ Ph.D. Degrees. The institution fosters a culture of research and innovation, boasting 2,000+ research publications in last 5 years, 35+ granted patents, 50+ filed patents, and 40+ published patents and 150+ funded research projects and ₹10+ crores of funds secured from various agencies like **ICMR, SERB, DST, Smile Train, Erasmus European Commission, NewGen IEDC, NSTEED**.

» With a strong focus on student success, 40% of SPDCH graduates pursue higher education in renowned institutions, while 60% are successfully placed in reputed national and International healthcare organizations or establish private practices. With a legacy of excellence, cutting-edge infrastructure, and global collaborations, the institution continues to be a leader in dental education and healthcare in India and beyond.

## COURSES OFFERED

### BACHELOR OF DENTAL SURGERY

Intake: 100

- » The **Bachelor of Dental Surgery (BDS)** program is structured to train students with the expertise required to diagnose, manage, and treat a wide spectrum of dental and oral pathologies with all the advance learning facilities.
- » The curriculum is meticulously designed to develop comprehensive theoretical knowledge, clinical competencies, and professional ethics essential for general dental practice. It encompasses the prevention, diagnosis, and therapeutic management of **oro-dental anomalies, maxillofacial disorders, and associated soft and hard tissue pathologies**.
- » The academic framework integrates foundational and applied medical sciences, covering disciplines such as **human anatomy, oral pathology, pharmacology, periodontology, orthodontics, and community dentistry**.
- » Graduates must undertake a **12 - months rotatory internship**. During this period, they are systematically assigned to **all nine specialized departments**. This structured internship enables them to apply and refine their clinical competencies, procedural skills, and theoretical knowledge acquired over four years of rigorous training, ensuring proficiency in managing a diverse spectrum of dental cases. .

#### ELIGIBILITY CRITERIA

- » As per D.C.I.
- » NEET examination qualify & Obtained 50% Marks in PCB Group & 45% Marks in PCB Group for SC/ST.

## MASTER OF DENTAL SURGERY

### ELIGIBILITY CRITERIA

- » As per D.C.I.
- » Candidate must possess a bachelor of Dental Surgery from a university/ institute Recognised by the DCI and minimum 50% in BDS, entrance test score and must qualify NEET PG.

## MASTER OF DENTAL SURGERY IN PROSTHODONTICS

Intake: 6

- » The Master of Dental Surgery (MDS) in Prosthodontics is a three-year postgraduate program designed to provide advanced clinical training in the diagnosis, rehabilitation, and management of edentulism, occlusal disorders, and craniofacial defects. This specialized curriculum provides dentists with the expertise to restore oral function, esthetics, and maxillofacial structures through prosthodontic interventions.
- » The department offers comprehensive patient care, addressing complex prosthodontic treatments such as occlusal rehabilitation, full-mouth reconstruction, implant-supported prostheses, and both extraoral and intraoral maxillofacial prostheses.
- » The program provides in-depth training in fixed and removable prosthodontics, maxillofacial prosthodontics, implantology, and esthetic dentistry, ensuring competency in advanced prosthetic rehabilitation techniques. This structured and intensive curriculum prepares dental professionals to become proficient prosthodontists, capable of delivering specialized care in diverse clinical scenarios.

## MASTER OF DENTAL SURGERY IN ORTHODONTICS & DENTOFACIAL ORTHOPEDICS

Intake: 6

- » The Master of Dental Surgery (MDS) program in Orthodontics is a three-year postgraduate curriculum in dentistry that specializes in the diagnosis, prevention, and management of malocclusions and craniofacial irregularities.
- » This advanced academic and clinical training program encompasses an in-depth study of craniofacial growth and development, dental occlusion and the biomechanics of orthodontic tooth movement.
- » Candidates are extensively trained in various therapeutic modalities, including fixed and removable orthodontic appliances, aligners, and orthognathic surgical interventions, aimed at correcting malocclusions.
- » It is recognized center by smile train.
- » Upon successful completion, graduates are qualified to practice as specialized orthodontists in healthcare institutions, dental clinics, and private practices. They may also pursue academic and research-oriented careers in orthodontics.

## MASTER OF DENTAL SURGERY IN PERIODONTICS

Intake: 3

- » **Master of Dental Surgery (MDS) in Periodontology** is a specialized three-year postgraduate program in dentistry focused on the diagnosis, prevention, and management of diseases affecting the periodontium, including the gingiva, alveolar bone, and periodontal ligament.
- » The curriculum encompasses an in-depth study of periodontal anatomy, pathophysiology of periodontal diseases, periodontal surgical procedures, implantology, and regenerative periodontal therapies. Additionally, trainees acquire expertise in advanced therapeutic interventions such as scaling and root planing, periodontal flap surgeries, and bone grafting to manage periodontal pathology and restore periodontal health and function.
- » By delivering comprehensive periodontal care, specialists in periodontology play a crucial role in preserving dentition, enhancing oral health, and improving the overall quality of life for their patients.

## MASTER OF DENTAL SURGERY IN ORAL AND MAXILLOFACIAL SURGERY

Intake: 6

- » The **Master of Dental Surgery (MDS) in Oral and Maxillofacial Surgery** is a three-year advanced postgraduate program that provides in-depth training in the diagnosis, surgical intervention, and comprehensive management of pathological conditions, trauma, congenital anomalies, and aesthetic concerns affecting the oral and maxillofacial region.
- » The curriculum encompasses an extensive study of maxillofacial trauma management, craniofacial pathology, orthognathic surgical procedures, aesthetic and reconstructive facial surgeries, temporomandibular joint (TMJ) disorders and surgical interventions, dentoalveolar surgery, and advanced craniofacial surgical techniques.
- » It is recognized center by smile train.

## MASTER OF DENTAL SURGERY IN CONSERVATIVE DENTISTRY & ENDODONTICS

Intake: 6

- » **MDS - Conservative Dentistry and Endodontics** is a three-year postgraduate program specializing in the diagnosis, prevention, and management of dental caries, structural defects, and various pathological conditions affecting the teeth.
- » The program also provides extensive training in endodontic procedures, including root canal therapy, re-treatment strategies, and the management of endodontic emergencies.
- » The curriculum covers a wide range of topics, such as aesthetic and restorative dentistry, direct and indirect restorations, endodontic diagnosis, root canal instrumentation techniques, obturation methods, and surgical endodontic procedures.

## MASTER OF DENTAL SURGERY IN ORAL MEDICINE & RADIOLOGY Intake: 3

- » Master of Dental Surgery (MDS) in Oral Medicine is a three-year postgraduate program that focuses on the diagnosis, prevention, and medical management of diseases affecting the oral and maxillofacial region.
- » The curriculum Focuses on the non-surgical management of TMJ disorders and salivary gland dysfunctions.
- » The program involves clinical exposure, case discussions and research activities for a comprehensive understanding of oral diseases. Also to understand various radiological investigation through CBCT & OPG.

## MASTER OF DENTAL SURGERY IN ORAL PATHOLOGY & MICROBIOLOGY Intake: 3

- » MDS in Oral Pathology is a three-year postgraduate program specialized that focuses on the etiology, pathogenesis, clinical presentation, and diagnosis of diseases affecting the oral and maxillofacial region, along with the study of the immune system and microbial interactions.
- » The Oral Pathology Department plays a pivotal role in the early detection of potentially malignant lesions and provides essential support to clinicians in the diagnosis of oral cancer, contributing significantly to oncologic and pathological research.

## MASTER OF DENTAL SURGERY IN PEDODONTICS & PREVENTIVE DENTISTRIVE Intake: 6

- » Master of Dental Surgery (MDS) in Pedodontics is a three-year postgraduate program in the field of dentistry that specializes in the diagnosis, prevention, and management of oral and dental conditions children from infancy through adolescence along with the implementation of preventive strategies to promote optimal oral and dental health.
- » The curriculum encompasses an in-depth study of pedodontics oral pathology, dental anatomy, dental caries, pedodontics periodontology, and the growth and development of the dentofacial complex. Additionally, the program focuses on preventive and therapeutic interventions, including fluoride therapy, pit and fissure sealants, and advanced behavioral management techniques aimed at ensuring effective and comfortable dental treatment for children.

## A PERSPECTIVE THAT REPRESENTS EXCELLENCE

### » ROHAN KHETAN (BDS) BATCH – 2019

It is of immense pleasure to be a part of DMIHER University. I am very proud that it is one of the renowned NAAC-accredited multi-disciplinary deemed to be University in India. It's amazing to see how the university has excelled in deepening its academic offerings and research focus over a period and how it strives to sharpen the skills of budding doctors towards competency building. I believe our faculties are truly a prized asset of our institution. My institution goes the extra mile to provide its students with varied opportunities in academics, research and co-curricular making the journey at DMIHER a holistic treat!

### » PRASANNA SONAR (MDS) BATCH – 2021

The teachers and mentors are dedicated and also really helpful. DMIHER university is one of the renowned N.A.A.C. accredited deemed to be University in India. It gives me immense pleasure to say with pride that I have completed my B.P.T from this University.

## Eminent Alumni
