 (Meghe), Wardha

FROM THE CHAIRMAN'S DESK

Dear friends,

Greetings from DMIHER

On behalf of the Organizing Committee of the National Workshop on Oropharyngeal Dysphagia 2024, I am pleased to invite you to participate in the national interdisciplinary workshop on Oropharyngeal Dysphagia. This workshop will cater to the needs of Otorhinolaryngologists, Deglutologists, Neurologists, Physicians, Neurosurgeons, Head and Neck Oncosurgeons, Oral Surgeons, Radiation Oncologists, Speech-Language Pathologists and Physiotherapists working on dysphagia management.

Neurologic and Neurosurgical conditions are a leading cause of Oropharyngeal dysphagia. Similarly, advancements in head and neck cancer treatment and increased rates of survival, pose a challenge of delivering optimal care with regard to swallowing rehabilitation.

The workshop aims to delve into the intricacies of dysphagia management with multidisciplinary collaboration and the sharing of a common platform for innovative ideas and research.

I invite you to join us in this journey of collective responsibility towards a neglected aspect of patient care with more meaningful outcomes.

Dr. Shraddha Jain
